

## Oily Skin Release

I, (print) \_\_\_\_\_, have been informed that combination/oily or severely oily skin can/will cause the pigments to: fade prematurely, look more blurred or powdered under the skin, change in color or not retain at all. Jettie has explained this to me & I wish to proceed & accept these risks and will hold Jettie Watkins and/or her associates harmless if above said risks occur. I take full responsibility & accept that this will or could happen. Appointments will not be made any sooner if the above mentioned issues occur. All services performed will be non-refundable and final.
